## SKILLS

---

**Programming Languages:** Python, Javascript  
**Fronted Technologies:** HTML,CSS,React.js,Bootstrap  
**Backend Technologies:** Node.js,Express.js,Restful- API  
**Data-base :** MongoDB,Mongoose  
**Other-Skills :** Replit,Codepen,Responsive Design, Postman

## EDUCATION

---

### Sr university

Bachelor's of Technology

2021-2025

Electrical and Electronics Engineering

## PROJECTS

---

### StayEase -(Developed a full-stack web application for vacation rentals)

- Implemented user authentication (signup, login, session management) for secure access.
- Designed a tour planning feature to help users create and customize their travel experiences.
- Integrated date selection and booking management for seamless reservations.
- Technologies Used are React.js, MongoDB, Node.js, Express.js, RESTful APIs, JWT Authentication

### OTT Streaming Platform -(Built a full-stack streaming platform)

- Designed a responsive UI with Bootstrap and CSS animations for a seamless user experience.
- Fetched real-time movie and TV show data from the TMDb API.
- Integrated user authentication using Firebase for secure access.
- Developed a full-stack video streaming web application using React.js, Firebase, and TMDb API.

### ATM Management System -(Created a Python-based ATM transactions and account management.)

- Developed an ATM simulation program using Python with core banking functionalities.
- Implemented features like balance inquiry, cash withdrawal, deposit.
- Implemented secure PIN authentication for user account safety.

## CERTIFICATE

---

Introduction To Web Development With HTML, CSS, JavaScript - (IBM),  
Python - (Kaggle),  
MongoDB - (Coursera)

## SOFT SKILLS

---

Teamwork  
communication  
Time-Management
